

## Layer 12 Select and Better Sample Disclaimer

Layer 12 offers select and better grade products that are manufactured to achieve a certain design look. Whether the planks are hand scraped or wire brushed, extreme care is taken to choose planks that exhibit character, color, and grain variations to meet our strict design specifications.

Showroom samples and custom samples can give an example of the product's appearance, but they may not be representative of the full range of color, texture and grain variations which can occur in the product itself. Colors and variations may appear differently due to many factors, including but not limited to lighting, camera/screen quality, natural wood pieces and graining.

Due to the nature of natural products and their exposure to sunlight and/or natural conditions, there can be a difference in samples and the received product, including color/tone, naturally occurring character imperfections such as knotholes and mineral streaks, etc, as well as grain orientation. Layer 12 does not accept liability for claims due to variations in color, grain, and character between the sample board and your installed floor.
